As we look back at the 2015 summer tribute concert series, we are again impressed with the quality of talent on the stage. Concertgoers were treated to a showcase of skill and expertise that rivals anything offered by major acts in the music industry. At the end of each concert, fans expressed their surprise at how authentic each tribute band portrayed the original artist. A look at some of the performers' pedigrees helps to explain why.

For example, in the case of Space Oddity, David Brighton's tribute to David Bowie, almost every band member had experience with a major artist. David Brighton himself had been a member of Quiet Riot, replacing the legendary Randy Rhoads. His guitarist Paul Nelson, has performed with Jefferson Starship, Glenn Frey, Don Henley, Steve Vai, Billy Idol and surf legends Jan & Dean and The Beach Boys. His bassist Trent Stroh, played with Eddie Money for six years and toured with super groups America and Air Supply. From the note for note renditions to uncanny visuals and vocals, it's no wonder why ticketholders felt as though they had witnessed "the real thing".

Litter Quality Propane is proud to announce that 2016 will be another summer of musical fun and excitement. Some of the hottest tribute bands in the world will be coming to Chillicothe from L.A. and Boston. Led Zepagain (Led Zeppelin tribute), The Atomic Punks (early Van Halen tribute) and The Great Escape (Journey tribute) will put smiles on the faces of music lovers as they help us relive an electric era in Rock's history. Visit litterpropane.com/concertseries to read and hear more about each band. You will learn that these professional musicians are serious about delivering a performance that you will never forget. Buy your tickets now from our site. These are three shows that you won't want to miss. See you next summer!
